Rahil Gangjee (Ind) Final Round 68 (-3), Total 275 (-9)

The moment I stepped on this golf course, I really liked it. It reminds me of some of the golf course I play in the United States. It has big and nice tall trees. My friend Arjun (Atwal) told me that I would like it and I really did. The greens were perfect and the way the course set-up was nice for me. I came with a positive attitude, knowing that this is one of the biggest events we play in this year. I had fun and I enjoyed the result.

This rough can be unpredictable. I was unfortunate to be in the rough. I missed the fairway and was in the bunker and missed the green and unpredictable rough got me!

If somebody finishes top-10 here, they will get their Asian Tour card. They won't have to worry about their Asian Tour card. You can really move up the rankings and that's my goal this year.

Last year's stats were not good and I was equally determined to improve and I worked hard for it. It is showing up. If my physical health stays then I will be good.

Ends.
